

Transport Guide 2026.

Getting around during the event without a car.

Your race starts before the start line

Coming to the HOKA UTMB® Mont-Blanc means travelling to a unique, living and environmentally sensitive region. To help preserve this exceptional environment and ensure smoother travel throughout event week, HOKA UTMB Mont-Blanc has set up a dedicated shuttle system for runners, supporters and spectators.

By booking and using UTMB Mobility transport services, everyone contributes to a more responsible event: fewer cars in the valleys, smoother journeys and a better experience for all.

This guide will help you understand how the shuttle system works, identify the services that match your needs and prepare your travel arrangements before and during the event.

Designed as an interactive document, it includes clickable links to help you quickly find the information relevant to you. Some pages will redirect you to the HOKA UTMB Mont-Blanc website, where you can view schedules, detailed maps, booking pages and the latest event information.

I am a runner

During HOKA UTMB Mont-Blanc 2026, shuttle services will be available to allow runners to reach their race start and avoid the use of private cars.

These shuttle services are included in your registration, but **booking is mandatory**. Every runner must book their seat in advance through their MyUTMB account.

Shuttle bookings are open 09/06/2026 until 12/07/2026.

For OCC and MCC runners, the use of the official shuttle services to reach the start is mandatory*. Failure to comply with this requirement will result in sporting penalties.

Depending on your accommodation location, multiple departure points will be available in the main towns and villages throughout the valley. Schedules, exact pick-up locations and detailed information are available on the official HOKA UTMB Mont-Blanc website.

Return shuttle services will also be available after your race to help you reach your onward destination. These services are optional but also require advance booking.

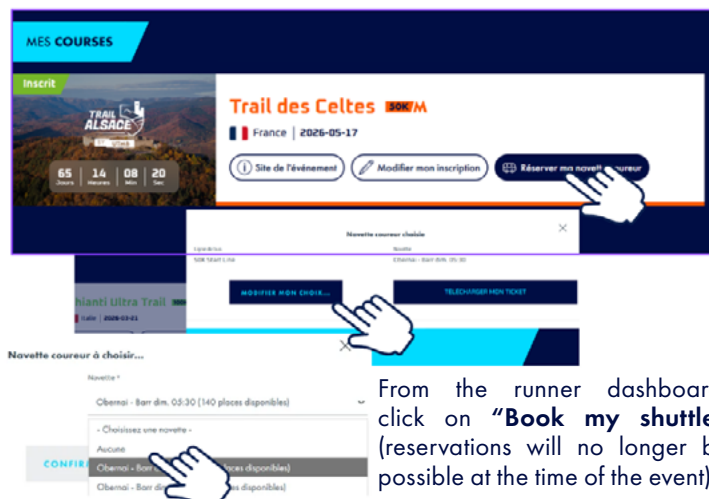

Exception: For non-residents staying in Switzerland or Italy, proof of accommodation must be uploaded through your registration dashboard. Failure to comply with this requirement will result in a penalty.

How do I book my runner shuttle?

1. Log in to your MyUTMB account.
2. Select your race.
3. Book your outbound shuttle using the options available.
4. If you would like to use a return shuttle, book the corresponding departure time as well.
5. Check your pick-up location, departure time and, if applicable, your return shuttle schedule.
6. On race day, make sure you arrive at the meeting point with the access confirmation (QR code) received by email after your booking.

MY UTMB®

KEY POINTS TO REMEMBER

- Runner shuttle services are included in your registration.
- Booking remains mandatory, even though the service is free of charge.
- Shuttle reservations must be made through your MyUTMB account.
- For the OCC and MCC, using the official shuttle services to reach the start is mandatory*.
- Return shuttle services are also available and must be booked in advance.
- Return schedules are designed to take account of cut-off times and differences in runners' finishing times.
- **Without a reservation, access to shuttle services cannot be guaranteed.**
- Exact schedules and pick-up locations are available on the official HOKA UTMB Mont-Blanc website.

* For the OCC and MCC, access to the start via UTMB Mobility is mandatory, except for permanent residents in Switzerland and Italy, or runners staying in Switzerland who have provided valid proof of accommodation. Failure to comply with this rule will result in a penalty.

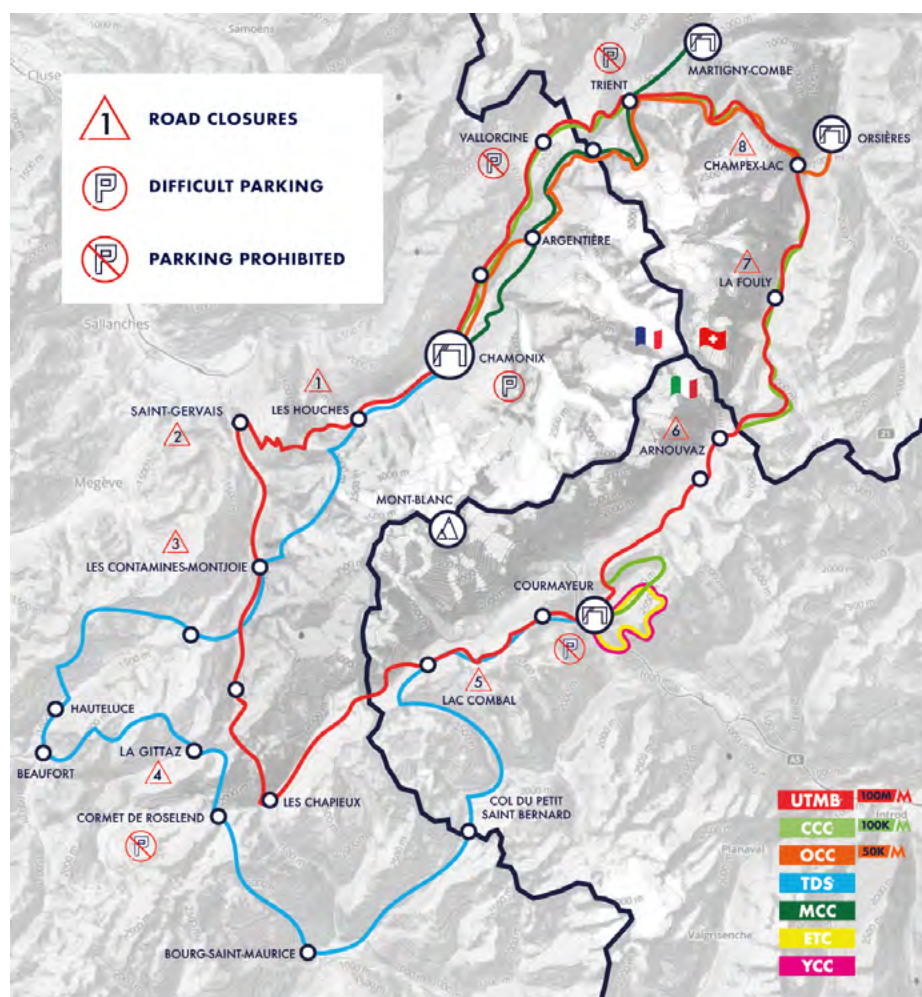

I am a supporter or spectator

During HOKA UTMB Mont-Blanc 2026, shuttle services will be available to allow supporters and spectators to follow their runner without using a private car.

Unlike runner shuttle services, these services require payment and the purchase of a UTMB Mobility pass. These passes provide access to shuttle services serving selected race starts, spectator points, aid stations and finish areas across the different races.

Passes are organised by race. For the UTMB® and the CCC®, several passes are available depending on the area of the course you wish to access: France, Italy or Switzerland. If you plan to follow the race across multiple areas, you may therefore need to purchase more than one pass.

Your UTMB Mobility pass allows you to use the shuttle services to reach a race start, provided if you have booked a shuttle departure time in advance.

Please note that some roads and parking areas will be closed or subject to significant restrictions during the event.

I AM A SUPPORTER OR SPECTATOR

How do I book my UTMB Mobility pass?

UTMB Mobility pass can be purchased through the official booking platform referenced on the HOKA UTMB Mont-Blanc website from **09/06/2026 until 12/07/2026**.

Before booking, make sure you identify the race you wish to follow, as well as the areas and checkpoints you would like to access. Depending on the race and the sections you wish to follow, one or several passes may be required.

Once your booking is complete, you will receive a QR code by email. On the day of travel, arrive at the designated meeting point in advance and present your QR code. It will be scanned when boarding the shuttle to validate your reservation.

If you have booked multiple shuttle journeys or services, all of your access rights will be grouped under a single QR code.

100% DIGITAL

NO MORE WRISTBANDS,
EVERYTHING IS DONE VIA
YOUR QR CODE.

**THE BEST WAY
TO FOLLOW THE RACE
WITH PEACE OF MIND**

IS BY USING THE SHUTTLE SERVICES!

KEY POINTS TO REMEMBER

- Supporter and spectator passes are paid services.
- Bookings can only be made through the official platform available on the HOKA UTMB Mont-Blanc website. No on-site bookings will be available. Resale of passes is not permitted.
- Your pass must correspond to the race you are following and include access to the countries you wish to visit.
- To travel to a race start by shuttle, you must also book a shuttle departure time.
- After booking, a QR code confirming your reservation will be sent by email.
- QR codes will be scanned and checked when boarding the shuttle.

BE AWARE

NO RESERVATION ON SITE

Steps to follow a runner

1. Coordinate with your runner to estimate their expected passage times (predictions are available via LiveTrail if needed) and identify where you would like to see them.
2. Identify the race concerned and check which checkpoints and aid stations can be accessed by shuttle  [HERE](#)
3. Purchase the appropriate UTMB Mobility pass or passes, including the relevant country access options.
4. You will also need to book a shuttle departure time if you wish to travel to a race start.
5. Shuttle schedules, journey times and bus stop locations throughout the races can be viewed  [HERE](#)
6. On race day, arrive early at the designated stop with the QR code received by email.
7. Allow sufficient travel time between spectator points, especially during busy periods.

Accessibility

Individuals requiring accessibility assistance are invited to contact the organisation in advance in order to obtain an exemption and benefit from appropriate access to race starts, aid stations and spectator points.

Children under 3 years old

Pour des raisons de sécurité et d'organisation, la présence d'enfants de moins de 3 ans est interdite dans les bus UTMB Mobility. Des dérogations exceptionnelles pour suivre votre coureur peuvent être accordées aux familles avec des enfants - de 3 ans. Une vérification de l'âge sera faite au retrait prévu au Point Info, sur présentation de justificatif (CNI, Livret de famille de l'enfant).

[MORE INFORMATION

Animals

Pets and animals of any kind, regardless of their size, are not permitted on UTMB Mobility buses.

Road and parking closures

During the event, a number of roads and parking areas will be closed to traffic, making it impossible to access Les Contamines, Saint-Gervais, Courmayeur, La Fouly, Champex, Col de la Forclaz, Trient and Vallorcine by private car. Parking will be prohibited in these areas and access will only be possible via UTMB Mobility shuttle services.

For your information, detailed information regarding road and parking closures can be found
